

Assign Microsoft 365 Licenses Using Group-Based Licensing

Group-based licensing is beneficial because you manage licenses **once at the group level** instead of assigning them user-by-user. When someone is added to the group, they automatically receive the correct license; when they're removed, the license is automatically taken away. These streamlines onboarding and offboarding, reduce manual work and mistakes, and keeps licensing consistent across users—especially when roles or memberships change over time.

1. Go to: The Microsoft Intune admin center website is:
2. <https://intune.microsoft.com>
3. → sign in as **Global Admin** or **License Admin**
4. In the left menu, go to: **Groups** → **All groups**
5. Click **New group**.

4: Set:

- **Group type:** Security
- **Group name:** e.g. License-M365-BusinessPremium-AllUsers
- **Group description:** e.g. Group-based licensing for M365 Business Premium

5: Click **Create**.

6: When you create a licensing group for group-based licensing, you **do NOT need to set**:

- Membership type
- Owners
- Members (at creation time)

Click on Assign Licenses

The screenshot shows the Microsoft 365 admin center interface. On the left is a navigation pane with categories like Devices, Resources, Marketplace, and Billing. The main content area is titled 'Licenses' and shows '2/2 assigned' with a progress bar. Below this, there are tabs for 'Licenses' and 'Errors & Issues'. A message states: 'To manage your licenses, select a group or user.' Below the message is a red-bordered box containing the 'Assign licenses' button, along with 'Export to CSV' and 'Refresh' buttons.

Click **Assign license**, then search for a name or email address. In this example, select the **License-M365 Business Premium-All Users** group you created earlier

This screenshot shows the 'Assign licenses' page in the Microsoft 365 admin center. It includes a search bar at the top. Below the search bar, there's a section titled 'Assign licenses' with instructions: 'Assign licenses for Microsoft 365 Business Premium to users or group, a maximum of 20 at a time.' There are two input fields for searching: 'Search for a name or email address' (highlighted with a red box) and 'Search for a name or email address' (highlighted with a blue box). Below these, there's a dropdown menu to 'Select the subscription you want to assign', currently showing 'Subscription: Mar 17, 2026 (0 of 2 available licenses)'. A search results dropdown is open, showing a list of results. The result 'License-M365 BusinessPremium-AllUsers' is highlighted with a red box.

Make sure you have license available and click on Assign Licenses.

Confirm the license is applied to the group

The **Microsoft 365 Business Premium** license is now assigned to the **License-All Users** group.

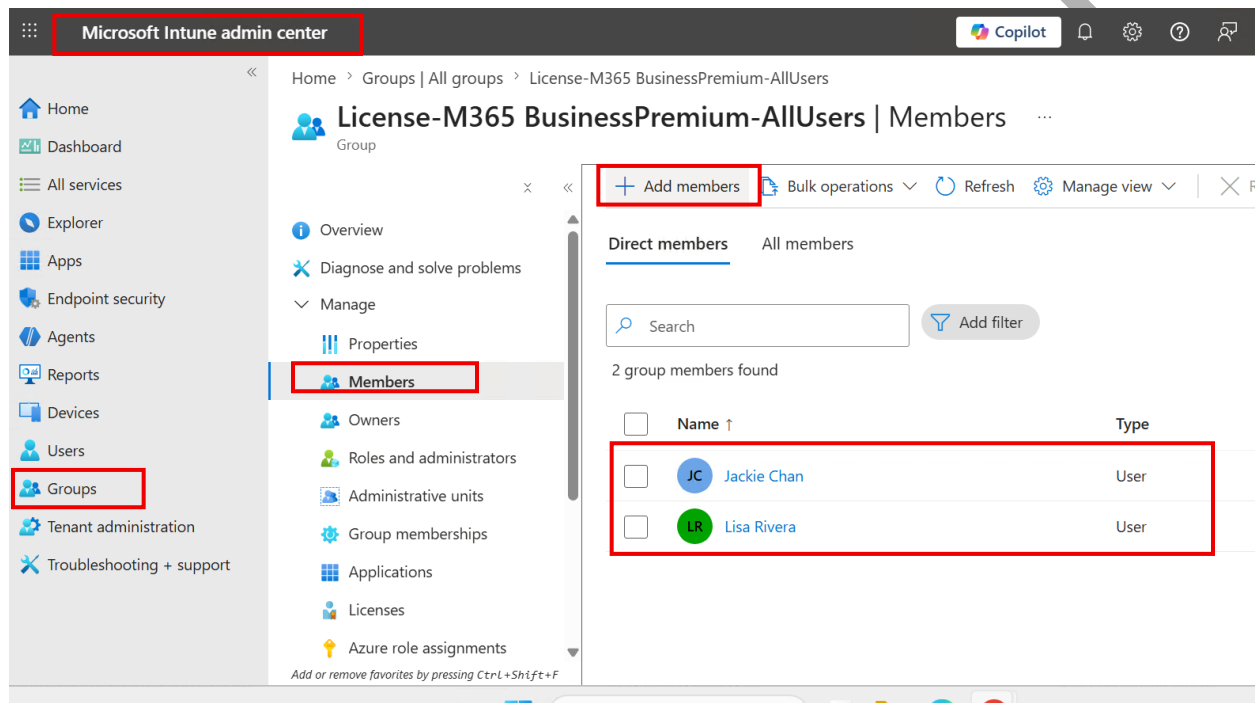

- Open the group in the admin center.
- Go to **Licenses** to confirm the product is listed and assigned.

Add members to the group (Intune)

1. Go to the **Microsoft Intune admin center**.
2. Open **Groups**, find your group, and select it.
3. Select **Members**, then choose **Add members**.
4. Select the users you want to add, then confirm to save the changes.

In the example below, two users have been added.

Verify a user's license assignment

1. Select the user's name in the Microsoft Entra admin center.
2. Confirm whether the license is assigned.
3. Review the user's group memberships to see which groups are applying licenses.

The screenshot displays the Microsoft Intune admin center interface. The breadcrumb navigation at the top reads: Home > Groups | All groups > License-M365 BusinessPremium-AllUsers | Members > Jackie Chan. The user's name, Jackie Chan, is highlighted with a red box. The left-hand navigation pane includes sections for Home, Dashboard, All services, Explorer, Apps, Endpoint security, Agents, Reports, Devices, Users, Groups, Tenant administration, and Troubleshooting + support. The 'Groups' option is highlighted with a red box. The main content area shows the 'Groups' tab for Jackie Chan, with a search bar and buttons for 'Add memberships', 'Remove memberships', 'Refresh', 'Columns', and a filter icon. A table lists the user's group memberships:

	Name	Object Id	Group
☐	CH ChronoTours HQ	dad5b48b-f264-448...	Microsc
☐	I IT	acc84a49-cf9b-4010...	Security
☐	LB License-M365 BusinessPremium-AllUsers	821caef1-5d68-4800...	Security

The row for 'License-M365 BusinessPremium-AllUsers' is highlighted with a red box. A large, diagonal watermark reading 'Surya G' is visible across the lower half of the image.

Example: Check a user's assigned licenses

In the example below, **Jackie** has three licenses assigned.

1. Select the user's name (Jackie).
2. Open **Licenses** to view the assigned products.

The first screenshot shows the 'Jackie Chan | Licenses' page in the Microsoft Intune admin center. The left sidebar has 'Overview' highlighted with a red box. The main content area shows a table of assigned licenses:

Products	State	Enabled Services	Assignment Paths
Microsoft 365 Business Premium	Active	52/52	Inherited (License-M365 Bu
Microsoft Intune Remote Help	Active	2/2	Direct
Microsoft Power Automate Free	Active	2/2	Direct

The second screenshot shows the 'Jackie Chan | Audit logs' page. The left sidebar has 'Audit logs' highlighted with a red box. The main content area shows a table of audit logs with filters for Date, Service, Category, Activity, and Status.

Date	Service	Category	Activity	Status
4/21/2026, 11:50:58 ...	Core Directory	UserManagement	Update user	Success
4/21/2026, 11:50:35 ...	Core Directory	UserManagement	Change user license	Success
4/21/2026, 11:50:35 ...	Core Directory	UserManagement	Change user license	Success
4/21/2026, 11:50:35 ...	Core Directory	UserManagement	Change user license	Success
4/21/2026, 11:50:35 ...	Core Directory	UserManagement	Change user license	Success
4/21/2026, 11:50:28 ...	Core Directory	GroupManagement	Add member to group	Success

Confirm license assignment in the audit logs

1. In the Microsoft Entra admin center, go to **Monitoring & health** → **Audit logs**.
2. Filter the logs by the affected user (and, if needed, by the licensing group).
3. Review the most recent events to confirm whether the license assignment **succeeded** or **failed** and open the details for any errors.
